

# HEI HVAC Upgrade / Replacement Projects

## Wayne Co Justice Ctr Chiller Replacement :

A nominal 30 year old 150 Ton water cooled chiller plant was upgraded and partially replaced with multiple modular chillers. Additional upgrades included pumps and refrigeration safeties.

## Holmes Co. Court House Heating Upgrade:

The existing heating system of numerous steam radiators was upgraded to a hydronic system with radiant ceiling panels. The upgrade converted (2) 1000 MBH CI Sectional Steam Boilers to Hydronic boilers and included all new pumps and piping.

## Wooster City Hall HVAC Upgrade:

Two Nom. 15,000 CFM dual duct Air Handling Units along with an 85 Ton air cooled chiller and a hydronic boiler were all replaced as part of an upgrade and replacement project.

## Wayne County Library HVAC Upgrade:

An HVAC upgrade included rebuilding an existing high pressure dual duct AHU in place along with replacing the air cooled condensing unit and a hydronic boiler plant.

## North Canton YMCA HVAC Upgrade:

An HVAC upgrade replaced and increased capacity of the existing steam boiler plant and replaced / improved the Natatorium Ventilation AHU and Air Distribution.
