

Roy Parks Memorial Library

Project Location: Bolivar, Ohio

Project Date: 1998

Project Description:

A nominal 4,000 square foot branch library of the Tuscarawas County Public Library system serving the community of Bolivar, Ohio. The facility includes a nominal 400 square foot community room as well as the general library.

In addition to the typical plumbing fixtures for public toilet facilities, a large storage room and the mechanical room have limited area sprinkler systems.

The HVAC system is comprised of three (3) DX / Electric Heat Fan Coil Units. One unit serves the general book shelving area, one unit serves the cathedral ceiling open layout area and one unit serves the community room and administrative areas.
