

ALLIANCE HOSPITAL: Medical Office Building

Project Location: Alliance, Ohio

Project Date: 2004

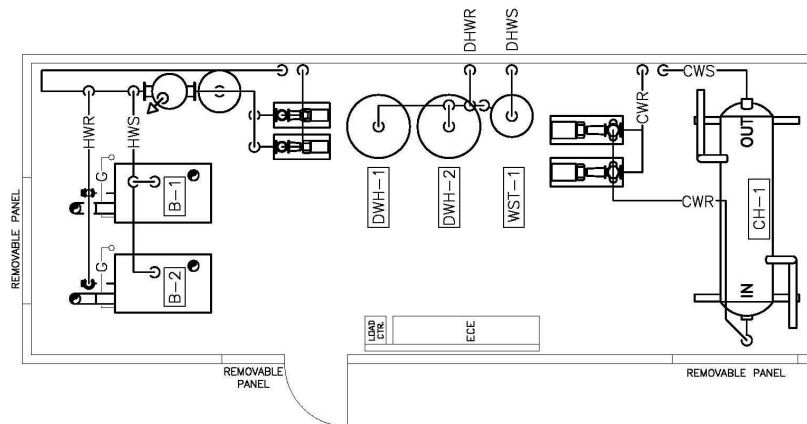

Project Description:

A nominal 50,000 square foot, three (3) story Medical Office Building consisting of General Practice Medical Offices, OB/GYN Offices, a Dialysis Suite, an Endoscopy Center, a Community Room and Administrative Offices.

In addition to the typical plumbing fixtures for a medical office environment, the plumbing system includes medical gases for the Endoscopy Center and a high purity water system for the Dialysis Suite.

The HVAC system consists of two rooftop air handling units with a VAV reheat system served by two 2000MBH high efficiency condensing type gas fired boilers and a 200 Ton air cooled chiller.
